PROFILE**

RED BEAGLE

YOUR PARTNER IN ELECTRICAL ENGINEERING

Red Beagle d.o.o. is an ISO-certified engineering firm based in Belgrade, founded in 2011, specializing in electrical engineering solutions. Our services include the installation of power, signaling, and telecommunication systems; the sale and distribution of telecommunication devices and cabling materials; as well as consulting in electrical engineering and telecommunications, product compliance certification, and electronics importation. Red Beagle also provides expert project assessments and supervision, focusing on delivering professional and tailored technical solutions.

With 13 years of successful operations in the Serbian market, the company offers comprehensive services in electrical installation, telecommunications, and assembly work during construction projects, holding all necessary licenses.

In the field of power installations, we offer services such as:

- Assembly and fabrication of power distribution cabinets, EMP, and BMS systems;
- Installation and cabling for all types of electrical consumers;
- Installation of lightning protection and grounding systems;

In the area of telecommunications and signalling installations:

- Installation of computer networks, video surveillance, intercoms, and alarms;
- Installation of smart home systems;
- Installation of fire alarm and CO detection systems.

RED BEAGLE d.o.o. has a strong track record of satisfied clients and completed projects in commercial, residential, hotel, and commercial properties, underscoring our success. On the following page, you will find an overview of some of our completed projects.
