YEAR FOUNDED

3
IKS LICENCES

25
RATEL CONTROL AND MEASUREMENT STATION SITES

FROM DESIGN TO HANDOVER OF THE BUILDING

Since our founding in 2011 we have worked in hotels, residential and office buildings, industrial halls and sports facilities, and on telecommunication infrastructure across Serbia. Works are led by licensed engineers and carried out by experienced electricians.

In addition to installation works, we sell specialised equipment and provide expert supervision, court expert witness services and custom electronics development.

01 POWER INSTALLATIONS

- Distribution boards and cabinets
- Supply cables and cable routes
- Lighting, earthing and lightning protection
- Generators and UPS systems
- Electric vehicle chargers
- Maintenance, thermography and measurements

02 ELECTRIC MOTOR DRIVES

- Control and command cabinets
- Ventilation and air conditioning
- Pumps and pool technology
- Frequency converters
- Connection and commissioning

03 TELECOMMUNICATION AND SIGNALLING INSTALLATIONS

- Structured cabling and optical networks
- Rack cabinets and active equipment
- Video surveillance and access control
- Wireless networks and radio links
- Fire alarm and CO detection

04 OTHER SERVICES

- Equipment sales: ALLTEC, Boltek, Mimosa
- Expert supervision and zero-state reports
- Compliance and equipment import
- Court expert witness services
- Electronics and software development
